

FELIX CORCORAN

FULL-STACK DEVELOPER &
AI AUTOMATION INTEGRATION

Málaga
felixxjbk@gmail.com
+34 673350029

Full-Stack Developer with a degree in DAW, specialized in AI integration and process automation with n8n. Real-world production experience connecting AI APIs with web applications and building scalable systems under the MVC pattern. Demonstrated ability to quickly adopt new technologies leveraging AI. Accustomed to remote environments and direct client communication.

EXPERIENCE

FREELANCE (2025 - Present)

- Adaptation and customization of an existing MVC system across various web projects, featuring custom functionalities such as online bookings and appointments.
- Development of features and components tailored to the specific needs of each client, relying on AI tools to accelerate delivery.
- Direct communication with the client to define, adjust, and deliver each web project.

PROJECTS

PILAR PELUQUERIA
MBH BUILDERS
AVILA SECRETARIA
REFORMAS PAOLA
SUSANA NAILS
CONSTR. OMEGA

WEB DEVELOPER (INTERNSHIP) | SIMPLY TRADE IN (2025 - 2026)

- Creation from scratch of the promotional and lead-generation web platform for the launch of a social app, maintaining total fidelity to UI/UX design.
- Design and implementation of AI automation workflows in n8n for automated content generation (images, videos and text).
- Processing and transformation of JSON as a bridging layer between web forms and AI engines.

PERSONAL PROJECTS

KALOAI | AI-POWERED PLATFORM LINK

- Intelligent recipe generator based on natural language and AI, filtering by intolerances and goals.
- Multi-role system (Administrator, Nutritionist, User) with user management.
- Automated inventory logic: shopping lists synchronized with the user's stock.

MY PROFESSIONAL PORTFOLIO LINK

- Architecture based on islands (Astro) to maximize performance and optimize technical SEO.
- Dynamic animations with Intersection Observer API to reinforce visual storytelling.
- Serverless contact management with Resend and asset optimization.

SPAIN TRADING CARDS — TIENDA SHOPIFY DE CARTAS TCG (in development)

- Complete design of the site and development of all technical functionalities supported by AI to accelerate development, defining architecture and validating each result.
- Automation of product creation: starting from a simple text, titles, descriptions, and all classification tags (set, language, type, category) are automatically generated, allowing large volumes of products to be uploaded without manual tagging errors.
