PROFILE

Full-stack developer with a degree in Web Application Development (DAW). I build websites and tools that connect AI models (OpenAI, Claude, Gemini) to real processes, and automate repetitive work with n8n. I work with real clients from the first conversation to delivery, and decide what is worth building before building it.

EXPERIENCE

Freelance web developer

2025 – present

- Custom websites for small businesses on a PHP MVC system, with online bookings and appointments.
- Features and components tailored to each client, using AI tools to speed up delivery.
- Direct contact with each client to define, adjust and deliver every project.

Clients: Pilar Peluquería · MBH Builders · Ávila Secretaría · Reformas Paola · Susana Nails · Construcciones Omega

Web developer (internship) · Simply Trade In

2025 – 2026

- Promotional and lead-generation website for the launch of a social app, true to the UI/UX design.
- AI workflows in n8n (running on Docker) to generate content: images, videos and text.
- JSON as the bridge between web forms and AI engines; React dashboard with login.

PROJECTS
